# MAXFORCE GH4040AC Package

*Built for the Way You Work*

## Unrivaled, Turn-Key Equipment for Commercial Air/Vapor Barrier and Roofing Contractors

For the most demanding contractor that needs high pressure and flow, the MaxForce GH4040AC utilizes Graco's time tested hydraulic motor and lowers. Powered by a large twin cylinder Kohler engine, you will not find a more powerful sprayer in the field. Self-contained with 250 feet of hose on an eletric hose reel, this turn-key package has everything you need to feed non-heated material from 55 gallon drums.

Part number: T10449-73
