MAXFORCE GH7225AC Package

Built for the Way You Work

The Ultimate Turn-Key Sprayer for the Commercial Roofing Contractor

Based on the popular MaxForce GH4030AC, this sprayer is designed with the commercial roofing contractor in mind. If you are spraying silicone from 55-gallon drums, this unit is THE turn-key, integrated solution for you. Like the other sprayers in the AC series, the GH7225AC uses a large gas driven Graco hydraulic pump that also operates the on-board air compressor for the 5:1 Monark feed pump. With built-in fly hooks, fork pockets and no flat tires, this portable unit easily goes where you need it to be.

Part number: T10449-72
